## Heating Technology

The heating elements of Luckboil® are made of multi-layered rare earth. Its heating efficiency is up to 98% and energy lost in standby mode is almost zero. In comparison with ordinary water heaters, it can save energy up to 80%. With its precise electronic control, there are 11 levels of water temperature (from 25-100°C) and 3 levels of water volume for your selection.

Whether it is for making Chinese tea with 95°C of water, honey drink with 50°C of water, coffee with 85°C of water or prepare a bottle of milk with 40°C of water, Luckboil® is there to help you prepare any drinks at anytime you want!

## Specifications

Model	LB-A000G05 White	LB-A000G05 Black
Product photo		
Temp. setting	25 / 45 / 55 / 65 / 70 / 75 / 80 / 85 / 90 / 95 / 100 °C	
Output volume	150 / 230 / 300 ml	
Water input pressure	0.03-0.6 mpa	
Water inlet size	Ø3mm	
Elect. loading	220V / 50Hz / 1ph, 2200W	
Net weight	1.95kg	
Dimension	290W x 100D x 370H mm
