

Intelligent temperature control.

Wine label can be viewed when the bottle is put on the patented designed racking.

Recessed LED cool lighting at the interior side panel.

Circulating cooling system

Double layer of Low-E, rimless glass door with UV protection.

Using the world best Embraco compressor with high efficient and eco features.

CE CB ERP RoHS 

Not as ordinary straight-in wine placement racking, AlcoHOLD's is using a horizontal wine placement racking, so that the wine label can clearly be viewed. Each rack is in ladder form allowing more capacity, and the rack can be pulled out by 80%, just like a drawer. This special designed wine racking has obtained several patents and design award.

- Obtained invention patent in China in 2016
- Obtained PCT international patent in 2017
- Obtained Good Design Award in Japan in 2020

# AlcoHOLD

## Your Choice of WINE CELLAR

<b>Model</b>	ABU-143R	ABU-40R
<b>Capacity</b>	143 bottles	40 bottles
<b>Noise level dB(A)</b>	40	38
